

Life Molecular Imaging GmbH is the German based Research & Development (R&D) organization of Life Molecular Imaging S.A. Switzerland. Our vision is to build our position as an innovator and leading player in the Molecular Imaging field. We aim to create value for patients & physicians by improving early detection and characterization of chronic and life-threatening diseases.

Life Molecular Imaging GmbH invites applications for the following position:

Pharmaceutical Quality Management Student Assistant (m/f/d)

What we expect:

- You are a university student with at least 3 years education in pharmacy or pharmaceutical sciences.
- You have a passion for industrial pharmacy and quality assurance.
- You are able to work accurately with high level of attention to detail.
- You are a team player who demonstrates acceptance of responsibility, maintains professional behavior and exhibits dependability.
- Your written and oral communication skills are well-developed, you exhibit an advanced level of English and preferably have a basic level of understanding of German also.

What you will learn:

- Basic principles of nuclear medicine and molecular imaging.
- Interpret and apply GMP guidelines, as QA team member maintaining and further developing the Quality Management System.
- Manage and organize QM related projects independently, like e.g. the worldwide employee training system.
- If opportunity arises, evaluate the quality level of contract manufacturers, by means of assisting and observing an audit at a contract manufacturing site.

Benefits:

Life Molecular Imaging GmbH, an exciting company - our people are interdisciplinary, international, smart, goal-oriented, creative, and we are looking for interns to participate in every level of quality management. The intern hired into this position should expect to learn all facets of quality and industrial pharmacy. This internship will be a great addition to your resume.

We offer flexible work arrangements (mini-job/ part-time) and the possibility to work home-based. This position reports directly to the Head of Quality Management, who is located in the headquarter of Life Molecular Imaging GmbH in Berlin, Germany.

If you want to become part of an entrepreneurial, international and interdisciplinary team, and if your background and personal experience fits this profile, please send us your application as a single pdf document to:
